Subject Index

Articulation training 32–42

Captioning
  real-time captioning, perceptions of C-Print 285–298
  television, comprehension of content 43–53
Children
  and cochlear implantation 70–81
  language development 15–31
  speech intelligibility 32–42
  and pretend play 15–31
  theory of mind development 92–102, 161–176
  word production 15–31
Cochlear implantation
  and articulation training 32–42
  ethical considerations 70–81
  for children 70–81, 186–199
  cultural issues 70–81
  and peer relationships 186–199

Deaf adults
  criminal defendants 226–234
  life history interviews 130–142
Demand-control theory 1–14
Due process rights 226–234

Education
  bilingual 299–314
  deaf education over the past 100 years 143–148
  different settings and effect on self-concepts of deaf students 54–69
  educational philosophies 212–225
  inclusion 54–69, 200–211, 212–225
  in Nicaragua, 315–326
  postsecondary 285–298
  school science 200–211, 258–284
  secondary 54–69
  teaching strategies 212–225, 258–284

False-belief understanding 92–102, 161–176

Interpreting 1–14

Literacy
  comprehension of captions 43–53
  research and practice 83–91
  writing 258–284

Parents
  and considerations for deaf children 70–81
  effects of universal neonatal hearing screening on 149–160
  mother-child communications 177–185

Sign language
  Australian Sign Language 299–314, 235–257
  training of interpreters and translators 1–14
  sign visibility and reference 177–185
Speechreading
  effects of tactile aids on 116–129
  speech tracking 103–115, 116–129
Support services
  captioning 43–53
  interpreting 1–14
  real-time captioning (C-Print) 285–298

Theory of mind 92–102, 161–177
Transcription system 285–298

Universal Neonatal Hearing Screening (UNHS) 149–160
